

# C-130 Paint Spray Booth

(Powell)

## **DESCRIPTION OF EFFORT**

Environmentally compliant side down, draft, pressurized, dry filter aircraft parts/support equipment for paint spray booth insert, paint mix room, and installs for the 403 Wing, Keesler AFB.

Quantity: 1

Program Assessment:  
Green

## **ISSUES**

- Original paint booth was installed in 1985 as continuous water film application. Makeup system has failed velocity checks due to deteriorating equipment. A spray booth insert will comply with environmental regulation.

## **ACTION ITEMS**

- 3080 re-programming request has been sent to congress.
- Will be loaded into appropriate PE for Keesler unit
